International Conference and Workshop Dispersion Analysis & Materials Testing 2018

Berlin, Germany,
January 29-30 2018

First call for papers Scientific Conference & Workshop

From 29-30 January 2018, LUM GmbH hosts the next, now traditional International Workshop Dispersion Analysis & Materials Testing in Berlin, Germany - now under a now moniker, »Conference & Workshop«.

Besides the excellent networking, the event provides the attendees yet another time with the unique opportunity to discuss their questions with international experts and to set future trends in their particular research and development and production fields. Again, all users, from industry and from research organizations, are kindly invited to highlight their experiences, methods and solutions for the characterization of particle properties and particle interactions.

Present your strategies and results based on the use of LUMiSizer, LUMiFuge, LUMiReader and LUMiReader X-Ray. The evaluation and optimization of separation processes is in focus as it is the development and improvement of formulations in all industrial branches, e.g. in cosmetics and home care, in food, in pharmaceutical industries, in the paints sector as well as in oil industry. The shelf-life prediction for emulsions and suspensions and the accelerated stability testing according to ISO /TR 13097 are of major importance for the event, too.

The Call for Papers is explicitly addressed to all LUMiFrac users, to report on their experiences in the field of adhesion and cohesion analysis, e.g. when determining the adhesion strength of coatings on various substrates or when applying adhesives in composite materials.

Kindly send your abstract for an oral presentation in English as MS word or PDF file by email to event@lum-gmbh.de.

**Deadline for abstract submission is on 30 June 2017.
Notification of acceptance will be given by 30 September 2017.**

All abstracts will be published on www.dispersion-letters.com.

Presenting authors are granted the workshop participation free of charge.

Call for LUM

Young Scientist Award 2018

With calling for papers for Young Scientist Award 2018 LUM again broadens its support and commitment in promoting young researchers from universities and academic institutions all across the globe. The submissions of relevant scientific results to the organizing committee of the workshop are hereby strongly encouraged.

To qualify, any applicant must meet the following conditions:

- Experimental results that advance the understanding of the general scientific community in the analysis of dispersions/particles respectively in materials testing were obtained by using LUM instruments since 2014.
- The scientific significance of the results is met by submitting a peer-reviewed publication, a Master or PhD thesis as copy, or, in case of unpublished results, a detailed description of work.
- A one page abstract, the scientific curriculum vitae, along with a letter of recommendation by the supervisor are required. Kindly submit all documents by email to event@lum-gmbh.de, keyword, 'LUM YSA 2018'.

The deadline for LUM Young Scientist Award 2018 applications expires on 30 June 2017.

An external jury will nominate three candidates to present their results during the International Conference & Workshop, including a free registration. The candidates will be announced on 30 September 2017. Their abstracts will be uploaded to www.dispersion-letters.com. The jury will present the laureate in Berlin. She or he and will be given the opportunity to submit an article to Dispersion Letters.

The LUM Young Scientist Award 2018 also includes a three night accommodation in Berlin and a prize money of 1,000 Euros.
